Signature by TS Booker

KEY FEATURES:

The Signature range is manufactured using 18mm Medium density fibreboard edged with solid grade laminate and faced with High Pressure Laminate. All joints are strengthened and panel edges softened to reduce the risk of product failure. The feature of this range is that the doors are hung on full length heavy duty piano hinges. This range has been produced by TS Booker since 1996 and has been installed in numerous Schools, Colleges, Universities, Laboratories, Hospitals and Her Majesties Prisons. Previous clients have never been disappointed with this specification and regularly place repeat orders. The range includes many widths, heights and depth of units with shelves, drawers and tray storage available.

- Black solid grade laminate
- Full length heavy duty Piano hinge
- 20 years lifecycle expectancy
