Strategic
by TS Booker

KEY FEATURES:

The Strategic range is manufactured using 18mm Melamine faced Medium density fibreboard with high pressure laminate faced door fronts. All joints are strengthened and panel edges softened to reduce the risk of product failure. The range was introduced to meet the competitive requirements and demanding quality relating to Schools, Colleges, Universities and Healthcare new building projects. Previous clients have been satisfied with the product colour options available and have been impressed with the quality of the installation. The range includes many widths, heights and depth of units with shelves, drawers and tray storage available.

- Regula 270° corner Hinge with exposed axle
- 15 years lifecycle expectancy
